

Dear Conveyor Pulley Buyer,

Across the country, Superior Industries is equipped with ten pulley warehouses to service our customers with lightning fast lead times and quick product deliveries.

In the Northeast United States, we stock our standard pulleys inside a 16,000 square foot warehouse owned by the Colmar Belting Company. As a result, Superior's pulley customers can expect quick lead times on standard product stocked at Colmar's South Boston facility. The long-time power transmission and belting distributor also carries a large stock of Superior brand conveyor idlers as well.

To learn what's in stock and how Colmar can keep your conveyor system functioning, contact:

The Colmar Belting Company

Distributor of Superior Idlers and Pulleys
